- It is the ONLY HOCl spray manufactured by a company specializing in dry eye.
- It is the ONLY HOCl spray made in a Health Canada licensed facility.

## INSTRUCTIONS FOR USE

- ① Wash hands.
- ② For best results, it is recommended to first use I-LID 'N LASH® wipes or pump to remove any existing ocular debris and makeup.
- ③ Spray I-LID 'N LASH® HOCL CLEANSING SPRAY once onto closed eye and let dry - OR - Spray onto clean cotton pad until moistened and then gently wipe eyelids.
- ④ Repeat on second eye. (If using a cotton pad to apply the product, use a clean cotton pad for the second eye.)

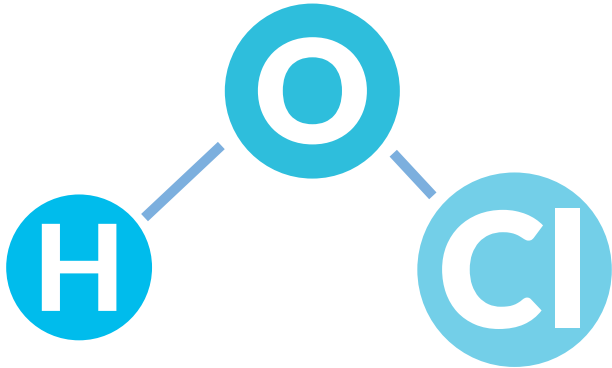

CREATES A “ONE-TWO PUNCH” FOR  
OPTIMAL CLEANSING WHEN USED IN  
COMBINATION WITH I-LID 'N LASH®  
WIPES OR PUMP!

# THE BENEFITS OF HYPOCHLOROUS ACID (HOCl)

## HOCl is

- Produced naturally by white blood cells within the body.
- All-natural, chemical-free, and non-toxic.
- Completely safe for humans and animals.
- An ideal disinfectant due to its strong anti-microbial properties & non-toxicity characteristics.

## WHY USE HOCl?

- ✓ Gentle but powerful disinfectant to kill bacteria, viruses, spores, and fungi.
- ✓ Produced naturally in the body and mimics the body's natural defense mechanism.
- ✓ Widely used in healthcare and optometry for its disinfectant properties.

## CLINICAL BENEFITS OF HOCl

HOCl is useful in managing bacterial overload in conditions associated with:

- Blepharitis
- MGD
- Dry eye
